Santa Rosa CA
95406

Sonoma County Water Agency invites you to attend one of our North County Recycled Water Project Open Houses.

- Feb. 3: Alexander Valley Community Hall
5512 Highway 128
Geyserville
- Feb. 4: Warm Springs Dam Visitor Center
3246 Skaggs Springs Road
Geyserville
- Feb. 5: Westside School
1201 Felta Road
Healdsburg

Time: Each Open House lasts from 5 p.m. to 8 p.m.

The proposed North County Recycled Water Project would provide water for agricultural uses for the Russian River, Dry Creek and Alexander valleys. It would also create an environmental benefit to the Russian River watershed by providing an alternative wastewater disposal option.

Learn about:

- The uses and the safety of recycled water
- Current uses of recycled water in Sonoma County
- Our county's water supply and wastewater regulation realities
- Pipeline and reservoir, water rights and environmental issues

• Project planning process and opportunities for public participation

Meet with representatives from:

- Sonoma County Water Agency
- City of Santa Rosa and Town of Windsor, on their successful recycled water projects
- Coalition for Sustainable Agriculture

For more information, call Marc Bautista at 707/547-1998.
